

Remote learning at BTA Midfield

Here at BTA Midfield for our remote learning we use an online App called See Saw.

<https://app.seesaw.me/-/login>

Your child's class teacher will set work for them using the seesaw app daily. Beginning with a message detailing what the activities for the day are. All our children are familiar with this app and have used it in school.

The children may then be directed to other programs that we use so they are able to complete their activities for the day.
